

For Immediate Release

17th November 2010

Unbridled Success for *EFADchip*[®] Technology Launch at China Hi Tech Fair

Hai Kang Life Corporation Limited (HKLife) joined hundreds of other exhibitors on the opening day of this year's China Hi Tech Fair (CHTF) 2010 in Shenzhen, China. The trade show will span six days with exhibits showing from November 16-21 at the Shenzhen Convention and Exhibition Center, presenting the latest innovation and technologies across various industries of economic importance.

On the first day of CHTF, HKLife booth drew many visitors, VIP guests and government officials, as company key representatives introduced the *EFADchip*[®] technology and demonstrated its unique and innovative device features that delivers immediate and accurate point-of-care diagnosis.

Hong Kong Commissioner for Innovation and Technology, Ms Janet Wong, and Assistant Commissioner (Policy and Development), Mr Nicholas Chan at HKLife booth with Prof Albert Yu, Chairman and CEO, and Dr Terence Lau, Executive Director and COO

The EFADchip® technology presents an advanced molecular diagnostic platform solution that includes a proprietary automated bioreader unit together with in-house developed signal analysis software for data and results output. Visitors were intrigued by EFADchip® technology as they came to learn how this miniaturized molecular testing platform can provide an affordable, easy-to-use and cost-effective diagnostic solution for any application, and anywhere, in a cutting-edge way.

The live demonstrations drew visitors' attention as they were able to see first-hand practical use of **EFADchip®** with the bioreader unit and test report. Visitors witnessed how fast **EFADchip®** was able to process a mock sample from loading to test results. HKLife booth also featured a video presentation of **EFADchip®** introduction where visitors to the booth were able to understand how the company's innovative solution addresses a major gap in modern healthcare - the lack of access to immediate diagnosis for proper treatment.

If you are in the Shenzhen area during the remainder of the CHTF trade show, HKLife cordially invites you to visit our booth at the Hong Kong Pavilion, Hall 9 Stand number 9S34a.

Stop by to learn more about **EFADchip®** and to see live demonstrations of this exciting, award-winning technology.

Time: 09:00 – 17:00
Venue: Shenzhen Convention & Exhibition Center
3 Fu Hua Road, Fu tian District, Shenzhen

About Hai Kang Life Corporation Limited:

Hai Kang Life Corporation Limited, formerly known as Hong Kong DNA Chips, was established with independent research funding in 1999. The company is strategically positioned at the hub of Asian biotechnology, equipped with the most advanced research and production facilities in both Beijing and Hong Kong. Strong working relationships with academic institutions, government and industry partners have created a solid foundation for business success. The world-class team of scientists, engineers and technologists, supported by a highly esteemed Scientific Advisory Board, is committed to maintaining HKLife's position at the forefront of bio-business, leveraging best practices from both East and West.
