

FOR IMMEDIATE RELEASE

14 July 2011

**Hai Kang Life Granted ISO 13485:2003 Accreditation
for *in-vitro* Clinical Molecular Diagnostics**

Hai Kang Life Corporation Limited (HKLife) announce today that it has been granted the ISO 13485:2003 quality management system accreditation for the design and manufacture of its *in-vitro* clinical molecular diagnostics.

ISO 13485:2003
MD 571271

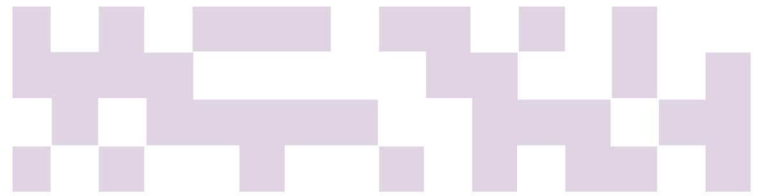

As a pioneering biotechnology company in Hong Kong, HKLife has long excelled in R&D and commercialization of molecular diagnostics. Our market-leading position is marked by receiving various accreditations and awards in this area of expertise.

Quality assurance has always been of utmost importance to HKLife and our subsidiaries; our partners and clients are guaranteed of our commitment to meet the highest quality standards in all HKLife products and services. Since 2000, HKLife has been accredited with **ISO 9001** – the first private biotechnology company in Hong Kong to bear this quality mark. We were also granted **ISO 17025** in 2003 - the first laboratory in China to perform both qualitative and quantitative genetically modified organism (GMO) testing with real-time PCR technology with granted accreditation from the Hong Kong Laboratory Accreditation Scheme (HOKLAS). Our ISO17025 accreditation has already been extended to include certification in Microbiology analysis and testing in food.

Apart from the above accreditations, we have also received various international recognitions. The prestigious **Frost & Sullivan Best Practices Award** for Production Differentiation Excellence Award for In-Vitro Diagnostics is one of the many to name. Frost & Sullivan Best Practices Award is presented each year to a company that has demonstrated effective strategy, leadership and innovation in the healthcare and technology industries.

HKLife will continue to be committed in delivering high-quality services and products with the mission to serve the global community with advanced biotechnology.

About Hai Kang Life Corporation Limited:

Hai Kang Life Corporation Limited was established with independent research funding in 1999. The company is strategically positioned at the hub of Asian biotechnology, equipped with the most advanced research and production facilities in both Beijing and Hong Kong. Strong working relationships with academic institutions, government and industry partners have created a solid foundation for business success. The world-class team of scientists, engineers and technologists, supported by a highly esteemed Scientific Advisory Board, is committed to maintaining Hai Kang Life's position at the forefront of bio-business, leveraging best practices from both East and West.
